

## **FIRST CIRCULAR - NATIONAL GEOLOGICAL JOB FAIR - GENT, 9 MARCH 2018**

Dear Sir/Madam,

The Belgian-Luxembourg Union of Geologists (BLUG/UBLG) and Geologica Belgica have the honor to invite you for the **National Geological Job Fair** which will be attended, for the first time, by the geology-oriented students of four Belgian universities, namely from the Universities of Ghent, Mons, Liège and Leuven. This event is organized for the benefit of geological oriented educations and employers.

The aim is to bring companies/organizations who employ or look for geologists and mining/geological engineers into contact with final year students and graduates. In addition, we want to build a platform to foster contacts between such companies and starting students and academics. This could, for example be useful for the proposal of internships or simply to increase the visibility of the participating companies. Through this event, we hope to encourage the relationship between employers and potential employees in the geological sector.

Participating companies will have a personal space at their disposal, which can be customised to their own design. However, for practical reasons, the size is limited to a two-persons desk. Furthermore, participants will be given the possibility to present their company briefly in a separate auditorium. The job fair will be closed with a networking reception.

This Geological Job Fair will take place on **Friday 9 March 2018 in Gent**, Details and practical issues will be communicated in a second circular.

In order to organise this job fair, we feel compelled to ask participating companies for a financial contribution. This contribution would amount to 200€ for companies employing more than 30 people and 100€ for companies with less employees.

We would greatly appreciate your presence. In order to notify us of your participation, we kindly ask to complete the form below and return it by e-mail to [geological.jobfair@gmail.com](mailto:geological.jobfair@gmail.com). We look forward to hearing from you.

Yours faithfully,

Guy Franceschi  
Belgian-Luxemburg Union of Geologists

Prof. Dr. Rudy Swennen  
Geologica Belgica

---
